Welcome <angelika from stuttgart> to km data-entry of KagyuRun!
Please enter the km-results of registered and new runners here.

- For new (or spontaneous) runners you need to fill out the * marked fields.
- For registered runners you can enter their registration-number or search them by lastname.

To search for a runner enter lastname: Search

If somebody was registered before, but you don't now his/ her number, you can find the registration number with this search function

If somebody was not registered before the run, he/ she can now be registered, but you have to check this field and fill out not only kilometre and discipline but also the fields with *

Especially spontaneous runners often find personal sponsors during the run: if so, leave this mark, if not put it away and we try to find an international sponsor.

Result entry of registered runners is easy: fill in the registration number, the original kilometers and discipline. That's all!

If your list of runners is longer than your window: you can go to the next page
